

Improved Frequency

What does improved frequency mean?

Improved frequency means buses come more often, all day. In other words, buses arrive at a stop every 15 or 30 minutes depending on the route.

When buses come more frequently, you don't need to plan your day around the schedule. For the most frequent routes (13, 41, 62A/B), buses would come every 15 minutes, seven days a week.

Minimum 30-minute frequency all day

Three routes with all-day, 15-minute service

Same frequency all-day, seven-days-a-week

Simpler bus schedules

What are the benefits?

Better accommodates your schedule

More flexibility for off-peak trips

Bus schedules that are easier to remember

What are the costs?

\$4.7M

Annual operating costs (additional)

21%

Increase in service

None

Capital costs

Which routes would have more frequent service?
